## Arthus Gallery & Anita Le Grelle

*Arthus gallery / Geert De Taeye –  
Each frame is hand carved with  
animals shown in the photography.*

Anita Le Grelle hand-makes unique ceramics with subtle colour and shape, each piece created with precision and delicacy.

Anita Le Grelle was born in Antwerp, where she obtained a degree in graphic design and restyled numerous labels for consumer goods. Anita moved to London, graduating from The Royal College of Art in 2000 as a sculptor. Having worked as a sculptor, she established her ceramics studio in Brussels in 2013.

Since 1998, Arthus has sought artists and works of Art that now identify the gallery as a living space dedicated to art in all its diversity, crossing divides between disciplines and building bridges between cultures and periods
